

BOAT SCRUB™

DIRECTIONS:

DEOXIDIZE FIBERGLASS, REMOVES YELLOWING, STAINS, SCUFF MARKS & POLISHES METAL:

Apply BOAT SCRUB™ to clean dry cloth & rub surface until smooth, original colour is restored & stains and scuffs are removed. Work in small areas. Buff with clean dry cloth until shiny. Turn cloth often. Protect surface with PREMIUM BOAT SHINE™.

NON SKID & TEXTURED SURFACES:

Wet surface with water, apply BOAT SCRUB™ & scrub with deck brush. Rinse clean. Wipe dry. Protect with SURE STEP™.

GRAY FILM & HEAVY DUTY BOAT WASHING:

Apply BOAT SCRUB™ to wet MARINE POWER MITT™ and wipe surface until clean. Rinse & dry. When completely dry, protect with PREMIUM BOAT SHINE™.

STAINS AND STUBBORN GRIME FROM VINYL:

Mix 1/2 BOAT SCRUB™ and 1/2 EZ VINYL CLEANER™. Scrub with stiff brush and rinse clean. Apply VINYL GUARD™ for protection.

NOTE:

BOAT SCRUB™ contains HYPEXINE™ to leach stains. Test surface for colour fastness prior to cleaning. For best results wash surface with BOAT CLEAN PLUS™ prior to using BOAT SCRUB™. When using low speed orbital buffer on fiberglass, use lambs wool pad in circular motion until fiberglass shines. Follow with EZ BUFF™ for high shine. DO NOT use excessive force or damage may result. Keep surface damp with BOAT SCRUB™ at all times.

DO NOT FREEZE**SHAKE WELL BEFORE USING****WARNING:**
