

PREMIUM BOAT SHINE™

- COVERAGE: 400sq. ft. ONE COAT (16oz bottle)
WITH VS721™ FOR GREATER DURABILITY

PREMIUM BOAT SHINE™ is a new long life complex polymer coating that outlasts other marine polishes and waxes. Ideal for Fiberglass, Aluminum, Painted surfaces, Chrome, Stainless Steel, Brass and Bronze.

Contains sun screens to help prevent chalking and fading and sealants to protect porous fiberglass from blistering and staining.

DIRECTIONS:

Wash boat with BOAT CLEAN PLUS™ to prevent dirt, grime, oil film and pollutants from being rubbed into surface. If boat is chalky, oxidized, faded, scuffed or stained, clean surface with BOAT SCRUB™ and EZ BUFF™. Remove algae and algae stain with GREEN GENIE™ or ALGAE STRIP™. Remove Waterline stains with WATERLINE STAIN REMOVER™.

Apply PREMIUM BOAT SHINE™ to clean dry boat with damp sponge. Let dry to haze. Wipe off with clean dry cloth.

Apply second coat for full season protection. Allow minimum of 24 hours between coats for thorough curing. Optional: final buffing with foam pad and rotary or orbital buffer.

NOTE:

When applying PREMIUM BOAT SHINE™ in direct sunlight, apply to small area at a time and wipe off before drying takes place. Ideal application temperatures: 50°F to 80°F, 15°C to 26°C.

SHAKE WELL BEFORE USING**DO NOT FREEZE****KEEP OUT OF REACH OF CHILDREN****CAUTION:**

May be harmful if swallowed.

Contains petroleum distillates.

IF SWALLOWED, DO NOT INDUCE VOMITING.

Call a physician.
