

# SPEED CLEAN™

## PVC - Inflatable Water Sport Equipment Restorer & Poly Guard Prep

**SPEED CLEAN™** Restores fabric of Inflatable Water Sport Equipment, damaged by sun, pollution, dirt, grime, scuff marks, lack of proper maintenance. **SPEED CLEAN™** will remove pollutants from manufacturing before applying **POLY GUARD™** for the first time. Use **SPEED CLEAN™** annually to strip dirt, pollutants and old **POLY GUARD™** from the surface before applying new **POLY GUARD™**.

NOTE: Severely damaged PVC may not be able to be restored and will have to be replaced. Do a test on several sections of your pillow to confirm desired results, prior to proceeding with complete restoration.

### **DIRECTIONS:**

For best results, use this product late in the late afternoon or early morning, out of direct sunlight. Inflate the equipment. Clean and restore one section at a time. Clean first with **MAXI CLEAN™**. Apply **SPEED CLEAN™** to a small area and scrub with a **MARINE POWER MITT™** or terry towel until the PVC is clean and shiny and all surface pollutants and oxidized fabric are removed. Rinse clean and dry with a soft cloth or chamois. Repeat until entire unit is restored.

After Restoration:

Before using your Inflatable Equipment, It is essential that the surface is protected against future damage from UV, pollution and dirt with **POLY GUARD™**.

## **SHAKE WELL BEFORE USING**
